Comments:

1 [The newspaper ad was ran only 1 day in advance to the Feb 3. public comment meeting ~~held~~ held in Las Vegas. I believe this does not give Las Vegasans adequate time to plan to attend. I saw nothing announced on the local news or the PBS station about this time period where the DOE is seeking public comment nor have I been aware of any coverage of the proposed "rule changes" for the suitability of the Yucca Mtn. in any Nevada media. ~~For~~ For the citizens of Nevada as well as communities along the proposed transportation routes to adequately respond to the proposed changes they must be adequately informed about them. I believe this is the responsibility of the DOE and YMP and I believe that the public has not adequately been informed or been given reasonable time to respond.]

Please note: For your comment(s) to be considered in the final rulemaking, your comment(s) need to be received by the Department of Energy by February 28, 2000. To the extent practicable the Department will consider comments received after February 28.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape. Please feel free to attach additional pages; more postage may be needed.
